

SparkMyName

VAULT RULES

Site Design · Color · Layout · Laws

The canonical design standard. Every build matches this.

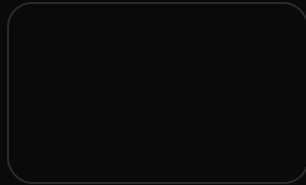

Issued July 9, 2026 · 3:58 PM EDT

Owned by VORREX IGNITE LLC · U.S. Patent Pending (App. 19/704,386)

Confidential — internal design standard

Color System

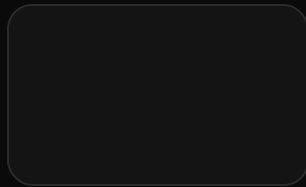

One background, one accent. Discipline over decoration.

Background

#0A0A0A

near-black — every page

Panels / cards

#141414

#111 / #101010

Gold accent

#BF9B3C

#BF9B3C — the one accent

Text

#FFFFFF

white / dim 72% / faint 46%

Green signal

#57C08A

#57C08A — available / yes

Red signal

#D9534F

no / unavailable

Borders: gold-tint rgba(191,155,60,.28). Hairlines: white 10%. No gradients on white or gold. Color is a signal, not decoration.

Typography

Serif headline, clean body. Bright on dark — never ghosted.

Playfair Display

Headings · 700 / 800 · serif

Inter — the quick brown fox jumps over the lazy dog.

Body & UI · 400–800 · sans-serif

SparkMyName

Wordmark: Spark in gold, MyName in white. Always.

- **Titles are bright (white or gold) — never dark/ghosted on a photo.**
- **Sizes stay readable on mobile; the Readability Law governs every screen.**

Layout

Calm, roomy, rounded. Built for thumbs and big screens both.

- **Cards & panels**

Panel #111 on near-black, rounded 16-22px, gold-tint border, generous padding.

- **Buttons**

Pill shape (radius 999px). Primary = solid gold, dark bold text. Destructive = small, muted, tucked far away.

- **Hub brand cards**

One column of full-width HORIZONTAL cards (~272px tall): photo left ~44%, name + idea + gold Open button right.

- **Responsive**

Centered and capped; stacks cleanly on phones; never scrolls sideways; tap targets thumb-friendly.

- **Homepage**

Approved and protected — the sanctuary. Match it; don't alter it without a direct order.

The Laws

Non-negotiable. Every future build obeys these.

- **Readability Law**

Every element passes contrast. Nothing unreadable ships.

- **Deliverable Fit Law**

No content runs off the page or canvas — ever. Text auto-shrinks or wraps to fit.

- **Verify-Before-Deliver**

Build a standalone test, verify, never ship blind. Proof scans (readability + fit) read 0/0 before any release.

- **Legal-Copy Freeze**

Footer and legal words are frozen. Styling only; copy changes by direct order.

- **Mark Policy**

No [™] or ® anywhere until the mark is actually registered.

- **Engine Lock / Graveyard**

clean-names.js is the sole naming engine. Graveyard files stay frozen — never re-enabled.

- **Fresh-Image Law**

A fresh hero image is generated per order — no shared-library staleness.
